Descriere

D10 Winter Garden este un sistem de acoperiș transparent din sticlă care aduce lumină în spațiile tale și le oferă senzația de spațialitate, permițându-ți să te bucuri de o vedere panoramică asupra împrejurimilor.

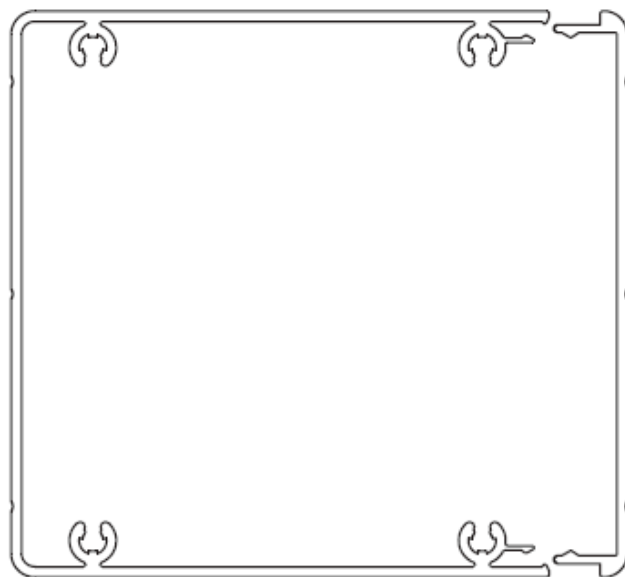

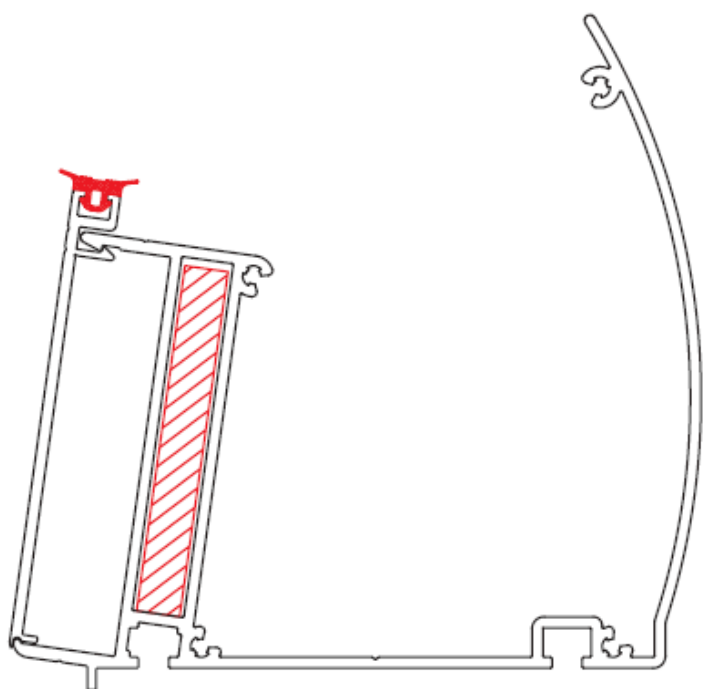

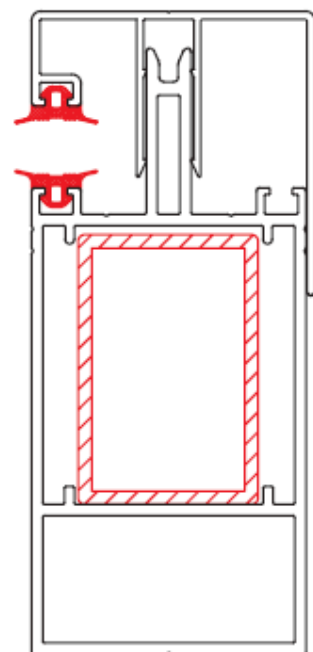

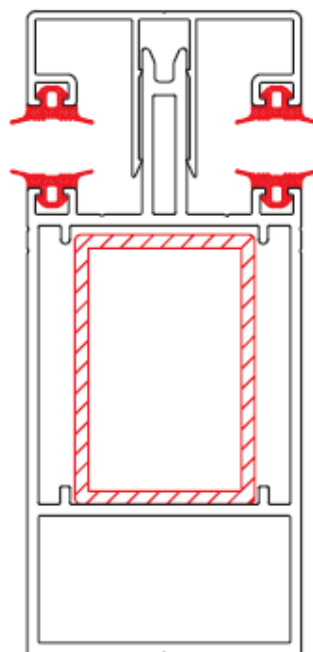

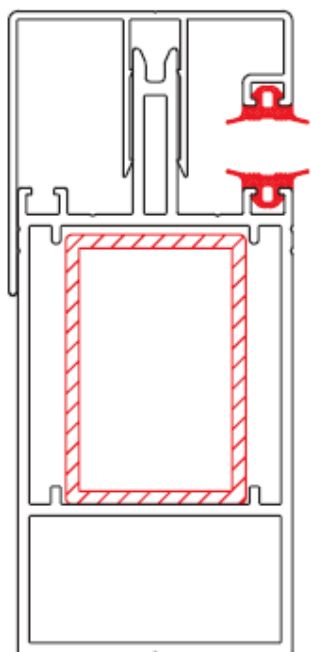

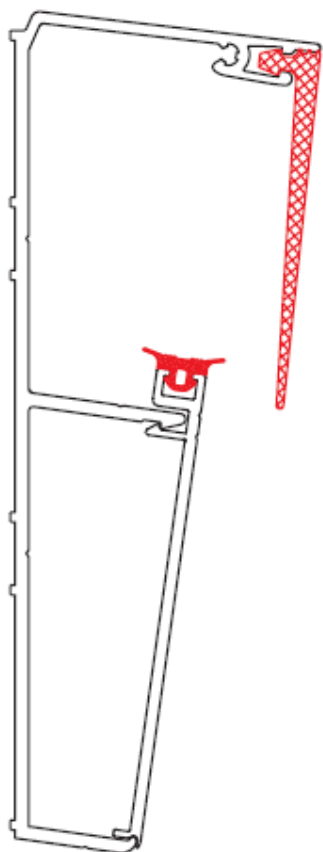

Designul modern, combinat cu varietatea de culori pe care le oferim și posibilitatea de integrare a diferitelor sisteme automate (LED, senzori de ploaie, lumină, etc.), îl face ideal pentru utilizare în spații exterioare și semi-exterioare.
